RESEARCH INTERESTS

Machine learning for private-market investment decisions; value of information and decision-making under uncertainty; explainable AI; entrepreneurial finance and startup valuation; decision-support systems.

EDUCATION

Master in Management — *ESCP Business School* (Turin · Berlin · Madrid · Paris) 2022 – 2026

- GPA 3.8/4.0. Specialisations: International Business Consulting; Corporate Finance / Financial Markets.
- Master's thesis: a machine-learning decision-support approach to venture-capital valuation (basis of the WI2026 paper below).

B.Sc. in Business & Management — *Università degli Studi di Torino* 2019 – 2022

- Final grade: 110/110.

The Future of Financial Institutions Management — *SDA Bocconi & Capgemini* 2023

- Corporate-sponsored executive program: financial markets, digital innovation, strategy in banking.

PUBLICATIONS

Guidi, A., Rashid, S., & Zhong, H. (2026). *Can Non-Financial Signals Price Private Companies? A Machine Learning Approach to Startup Valuation*. Accepted, WI2026 Student Track (Business Informatics).

RESEARCH EXPERIENCE

Master's Thesis — **ML for Venture-Capital Valuation**, *ESCP Business School* 2025 – 2026

- Built an end-to-end ML pipeline pricing private companies on **3,403 PitchBook VC deals** plus macro data (GEM), using a progressive 3-layer design (OLS financial baselines → non-financial ML → full-feature ablation).
- Engineered features from investor co-investment / syndicate structure; models: Random Forest, Gradient Boosting, ElasticNet; interpretability via SHAP.
- Evaluated under a strict **out-of-time holdout** across the 2022 regime shift; showed non-financial signals price private companies **competitively with, and more robustly than**, the best financial baseline, with investor-syndicate capacity as the dominant driver.

PROFESSIONAL EXPERIENCE

Product Manager, EU5 3P — *Amazon*, Paris Sep 2025 – present

- Product strategy for onboarding strategic B2B sellers into EU5 Amazon Business; cross-functional coordination across Sales, Tech, Legal, Ops in five markets.
- Redesigned CRM workflows with data-driven automation, reducing operational overhead ~25%.

Technology Consultant — *Capgemini*, Milan Sep 2023 – Aug 2025

- Financial modelling and process-reengineering for Tier-1 banking clients; built market-analysis and risk-assessment models supporting executive decisions on digital-transformation roadmaps.

TECHNICAL SKILLS

Languages / tools: Python (scikit-learn, XGBoost, SHAP, pandas, NumPy), SQL, Git, Jupyter.

Methods: supervised ML (tree ensembles, regularised regression), feature engineering, graph/network features, model interpretability (SHAP), temporal / out-of-time validation.

Domain: venture-capital & startup ecosystems, valuation (DCF, comparables, ML-based), entrepreneurial finance.

LEADERSHIP

Consultant → Project Manager → Director → President — *180 Degrees Consulting*, Turin 2022 – 2025

- Led strategy, project portfolio, and organisational growth of the student consulting association.
